INSTRUCTIONS FOR USING THE SAUKONLAITURI PARKING FACILITY

PEDESTRIAN ENTRANCES

You can enter the facility on foot through two different doors, either from Karibiankatu or Bahamankuja. The pedestrian entrances use the same identification card as the car entrance. You can also access different floors from the terrace stairs on Bahamankatu, but they are not maintained during the winter.

CHARGING STATIONS FOR ELECTRIC VEHICLES

There are public charging stations for electric vehicles in the parking facility. The price of energy is lower for contract customers. You can get a contract from the customer service of Jätkäsaaren Pysäköinti.

The charging stations are operated in the same way as any public charging station. Check in at the charging station as a Virta.fi customer or with another operator's ID that is compatible with the Virta service. The charged energy will be added to the regular invoice for your electric vehicle. If necessary, register in advance at virta.fi.

IDENTIFICATION

One parking permit only entitles you to one identification card. With the identification, you are entitled to park only one vehicle at a time in the facility. The system will not let a vehicle enter if the identification connected to a parking permit is already in use by another vehicle in the facility.
